Dee L. Rivard, TBI Fund Administrator
302-257-3614

If you are living with a Traumatic Brain Injury (TBI), or know a survivor, please review and **share the information below**. Traumatic Brain Injuries (TBIs) are often referred to by medical professionals as the “**Silent Epidemic**.” We need your help to end the silence!

Applications from TBI survivors are considered on a case by case basis by the TBI Fund Committee to determine funding eligibility for short-term therapy, treatment, or necessary equipment that is not paid by healthcare insurance. To learn more or to submit an application to the TBI Fund, please click here:
<https://scpd.delaware.gov/brain-injury-funds.shtml>

The new SCPD **Traumatic Brain Injury Fund - Project Gallery** is now LIVE and accessible from the Information dropdown menu on the SCPD website. Please take the time to visit this page to see the type of things that Delaware’s Traumatic Brain Injury (TBI) Fund can help Survivors obtain:
<https://scpd.delaware.gov/brainInjuryFund/contentFolder/projectGallery.shtml>

Also if you have not yet had the opportunity to view the TBI Survivor Stories on the SCPD website please check them out at:
<https://scpd.delaware.gov/yourStory.shtml>. We are sharing these stories of Delawareans who **ARE** the **Silent Epidemic**

While you are visiting the SCPD website, I hope that you will take the time to view the **Traumatic Brain Injury Fund - Thank You** section of the SCPD website at:
<https://scpd.delaware.gov/brainInjuryFund/contentFolder/tbifThanks.shtml>

The Brain Injury Information section of the SCPD website contains Facts, Financial Assistance, TBI Information, a list of Resources, Rehabilitation Centers, and Support Groups available for Brain Injury Survivors and a Q & A section. This section is also available from the “Information” dropdown menu or you can visit it quickly by clicking here: <https://scpd.delaware.gov/brainInjury.shtml>

Thank you for taking the time to read this. Please share it with social workers, case managers, and medical professionals who may want to share this information with Survivors and their family.
